"Monday when I came to class I thought it was going to be like all the other classes. After an hour of the class I noticed it was different. In 25 years of Law Enforcement and thousands of cases I just wish I would have known then what I was taught in this class."

Truth Services Kansas LLC

Mission Statement

Our mission is to provide education and consultation to our clients who seek the truth. Through Forensic Statement Analysis and Interviews and Interrogation we provide confidential guidance to our clients on their quest in finding the truth.

The Student will acquire an understanding of Forensic Statement Analysis/Cognitive Interviewing and proper application of the discipline.

Properly acquiring an uninfluenced written statement.

Properly break down the statement and extract more information from a person of interest than they realize they are revealing.

Eliminate wasted man hours in an investigation by understanding what is really being reported to the investigator.

Comments of Previous Students

Detective Greer's analysis has already helped me solve an accident in which I would have found the wrong person at fault. I believe this training is extremely valuable to us as law enforcement and should be taught to all Troopers. What a difference this course has made to Master Trooper and I, we will never look at another statement or interview someone the same way again! **Kansas State Trooper**

The most valuable aspect of this course for me was that it trained me to start listening to the words that people use during their interviews/interrogations instead of focusing just on their body language or a prearranged set of questions. Detective Greer also provided additional support after the training had concluded which I have never received from any other training I've attended. If anyone has an opportunity to take this class, it is well worth it. **Indiana Detective**

I was fascinated to learn how powerful words can be. I don't think I will ever pick up another statement without looking for a red pen. **Indiana Chief of Police**

I last seen my truck at approx. 10 O'clock Friday night. I did not loan the vehicle anyone and did not know the truck was gone until around 6:30 Saturday morning when I tried to go to work. Was standing in open driveway when dispatcher called.
